

**R380. Health, Administration.**

**R380-404. Dosing Parameters.**

**R380-404-1. Authority and Purpose.**

Pursuant to Subsection 26-1-5(1), this rule establishes standards for dosing parameters in a medical cannabis recommendation.

**R380-404-2. Dosing Parameters in Medical Cannabis Recommendation.**

(1) A QMP can change the dosage form, or dosing parameters, in the EVS for their patient. A PMP shall not change the dosage form, or dosing parameters, entered in the EVS by a patient's QMP; without approval from the patient's QMP.

(2) A QMP may change the dosage form, or dosing parameters, specified by a patient's former QMP; so long as the cardholder has identified the current QMP as the QMP of record, and removed the former QMP from the EVS.

(3) If a QMP has not specified the dosage form, or dosing parameters, for a patient, a PMP may specify the dosage form, and dosing parameters. If a QMP does not specify a dosing form, and dosing parameters, for a patient, or specifies a dosage form and some or no dosing parameters for a patient, a PMP may specify the remaining dosing parameters.

(4) A state central patient portal medical provider may specify dosage form and dosing parameters for a patient recommendation in the EVS, only upon written or verbal consent from a medical cannabis cardholder; and if either the dosage form or dosing parameters are not specified in the EVS by the patient's QMP. If a QMP specifies certain dosing parameters for a patient, a state central patient portal medical provider may specify the remaining dosing parameters, with written or verbal consent of the medical cannabis cardholder.
