Patients by small area boundary table

Cardholder growth

'New Patients Per Month' are new unique patient activations per month. Patients in these counts may no longer be active.

'Activated Per Month' Counts are based on *current* active patients. The month is determined by when they were first made active. Since these counts are based on current active patients, counts in previous months may change as patients expire and renew.

'Expired per Month' Counts are based on currently expired patients organized by the month of their most recent expiration.

The 'Renewals Per Month' is the count of unique patients who had a card renewed any given month. Patients who have never renewed are excluded.

'Activations and Renewals per Month' is the count of unique patients who had either a card activated or renewed any given month.
